3.2.2. Social Media Management

Approval

The establishment of new social media sites must be approved by the Chief Executive Officer. Approval of new social media sites should consider the identified business objective, audience, proposed use in line with this policy, resourcing requirements and ensure alignment with Council's branding and style guidelines.

Security

To protect from unauthorised use of Council's social media channels, login information should be kept secure and changed at regular intervals:

- Choose passwords that combine upper and lower case letters and numbers
- Store login information in a secure location and the Community and Economic Development Department will maintain a centralised list of all the District Council of Streaky Bay's social media with appropriate access restrictions
- Change passwords every six months and when an employee with access to a Council social media channel leaves the organisation

Monitoring & Moderating

Council's social media channels should be regularly monitored and maintained to ensure appropriate use. Where necessary keep formal records of social media activity in line with Council's Information Records Policy.

In the judgment in *Fairfax Media Publications Pty Ltd v Voller* [2021] HCA 27, the High Court upheld the lower decision that the administrators of social media pages can be held liable for defamatory comments posted on those pages by third parties.

This decision emphasises the need for Council to carefully moderate their social media pages if they wish to avoid liability in defamation.

Acknowledging the advantages of social media as an engagement tool for Council, the ability to maintain a two conversation via social media is still encouraged. However, the following monitoring rules should be followed:

- Switch off comments on any post which has been up seven or days longer, so it no longer has to be moderated
- Automatically switch off comments on an issue which may be controversial or draw offensive third-party comments before posting
- Hide or delete any third-party comments made which may be perceived as being offensive, malicious, defamatory or may negatively impact the reputation of another
- Use "filters" to block posts using particular words or offensive language

- If resources aren't in place to monitor & moderate social media content, switch off comments

Council and non-Council social media channels should be monitored for information, research and insight into issues circulating in the community and/or matters that impact on the municipality, its operations or reputation.

Evaluation and continuous improvement

Use of Council's social media channels should be reviewed at regular intervals to ensure they are achieving business objectives and to seek opportunities for further improvement. This includes review of qualitative (feedback, comments) and quantitative data (likes, reach, audience make-up, number of comments, click throughs to Council websites etc).
