Council News

GOVERNANCE

Community Vision – Long Term Strategic Plan 2025-2045

Council following the Community Consultation period and various consultation sessions was presented with the Final Draft of the document to the September meeting of Council. The Plan was endorsed without amendments and will be used as the guiding strategic document for the districts long term priorities.

INFRASTRUCTURE

Unsealed Road Construction Program Schedule 2024/2025

The Assets and Infrastructure Advisory Committee of Council reviewed and endorsed the proposed road construction program schedule for 2024/2025.

Tractor Beach Hybrid System Installation

The existing compost system has now been replaced with a hybrid toilet system, this will reduce the maintenance required to maintain the system.

Alec Baldock Drive/AB Smith Road Intersection

The Assets and Infrastructure Advisory Committee of Council moved a motion without notice that was subsequently endorsed by Council to remove the upright kerbing and widen the intersection on Alec Baldock Drive intersection at both ends to alleviate potential issues caused to long vehicles.

Oyster Barn Streaky Bay - Carpark

Since the re-opening of the kiosk, we have noticed significant parking issues during the peak lunch and dinner hours. An additional 6 parking spaces are being added to the kiosk car park. This is a low-cost solution that only required us to remove tree limbs and low shrubs. Quarry fines, pine bollards and rumble strips will be installed to define the parking spaces.

Streaky Bay Foreshore Landscaping

As part of the replacement of the CBD Toilet Fencing, Council Staff had to remove a lot of the existing trees/shrubs. They have since cleared and levelled the area in preparation for lawn. A new pram ramp and footpath has been installed to improve connectivity and accessibility as the existing path was narrow and did not have a ramp connecting to the foreshore. Lawn installation next to the CBD toilets is currently on-hold as the area is now being used for site offices by the contractor completing the Streaky Bay Jetty upgrade.

Wirrulla Dump Point

Council after again considering the location for the dump point at Wirrulla resolved for Council Officers to go back out to Community Consultation to again consult with the community on their preferred location.

Streaky Bay CBD Toilet Refurbishment

Council considered a report that discussed the increased cost of refurbishment and the potential to replace the toilets. Council endorsed for Council Officers to pursue costings for replacement and Council will consider those costs at a future meeting.

Roads Update

Roads – Construction

Currently completing

- Calca Bluff Road – Flinders Highway to Drinanvale

Recently Completed

- Westall Way Loop - Yanerbie Rd to Reef Road (Fisherman's Paradise)

Montgomerie Terrace Shared Use Path

The surveyor undertook an initial site survey in early May and that data has been used to develop draft plans, those plans were reviewed by operational staff and it was determined that further survey work was required to ensure that matters of stormwater management were adequately considered. These additional requirements have now been undertaken and are being worked into revised plans.

Haslam Jetty Repairs

Tender documents were released through Tenders SA and tenders received will now be assessed by Council Officers.

Hall and Office Generators

Contractors have been on site and Generators have now been installed to the Hall/Supper Room and Principal Office with the ability to operate during Power Outages.

PLANNING & REGULATORY

Shipping Container Policy - Review

Council undertook a review of this Policy and made no changes to the existing Policy, this Policy will be reviewed in three (3) years time.

Council News

PLANNING & REGULATORY CONTINUED...

Requests for Access to Development Application Documents – Draft Policy

Council considered a Policy regarding the requirements for the public to be able to obtain copies of (specifically) plans associated with Development Application Documentation. This Policy sets out the regulations around these requests, this will ensure that copy rights are upheld for architects and landscape planners. Additional information is being sought regarding plans that are presented to Council when Land Management Agreement Waivers are presented.

Mobile Food Vendor Policy Review

Council undertook a review of this Policy, including seeking advice on its ability to prevent certain vendors, and elected to make no changes to the Policy. A copy of the full report including the advice received is available on Council's website www.streakybay.sa.gov.au

Mobile Food Vendor Policy Review

Council undertook a review of this Policy, including seeking advice on its ability to prevent certain vendors, and elected to make no changes to the Policy. A copy of the full report including the advice received is available on Council's website www.streakybay.sa.gov.au

Mobile Food Vendor Precinct

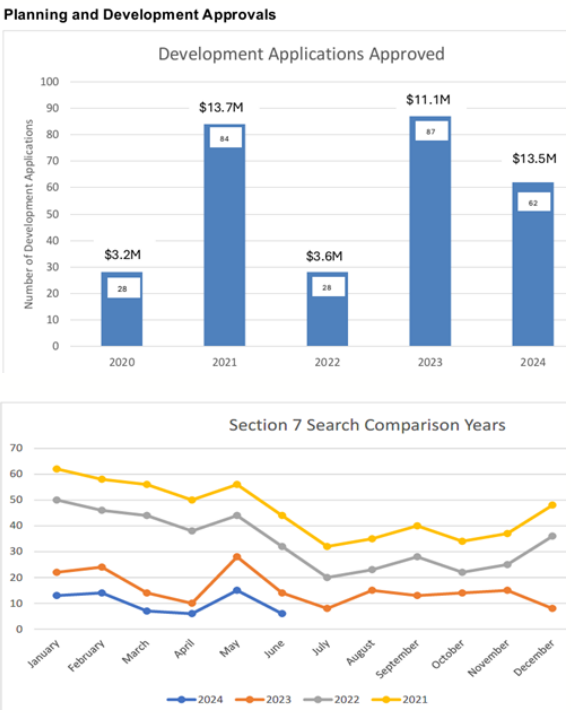

Council receives a number of requests each year and particularly during peak seasons from both local and out of district food vendors to operate in the Council district. It has become increasingly difficult to find ideal locations for these vendors to establish, and consideration has been given to parking within the Streaky Bay township. Council Officers are proposing to establish a "Food Vendor Precinct" to consolidate the vendors into one location. A report will be presented to the October Meeting of Council.

Community Strengthening Planning Committee – Terms of Reference Changes

Council can have in place sub-committees (known as Section 41 Committees) and the Community Strengthening Planning Committee is one of these Committees.

At its last meeting the members reviewed its Terms of Reference to increase the Quorum to 4, enable Streaky Bay Tourism and Business to provide a Proxy Representative and advertise for its vacant independent position.

District Planning Approvals

Wells Street – 10 Minute Parking Zone

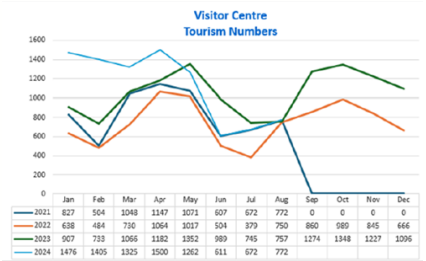

Council received a request from a local business to establish a 10-minute parking zone in front of their business on 55 Wells Street, Streaky Bay. This request was endorsed by Council to trial with a review to be undertaken at the end of the summer peak season.

Additional Parking – Montgomerie Terrace

Council received a report to consider activating the old Tennis Court area located on Montgomerie Terrace for the purpose of a parking area, with the ability to accommodate approximately 180 cars, with the aim to manage increased parkin demand during the peak season, Council endorsed this proposal.

ECONOMIC DEVELOPMENT/TOURISM

Visitor Centre Numbers

Council News

ECONOMIC DEVELOPMENT/TOURISM CONTINUED...

Rodeo By The Sea Dry Zone

Council have again supported the implementation of designated dry zone areas at the Racecourse to support the event to be held on Saturday 19 October 2024.

Visitor Centre – Room Upgrade

The CDS (Community Development Supervisor) has completed the request for quotation process and has informed the successful contractor. Installation of cavity sliders is scheduled to begin in mid-September 2024. These sliders will provide the flexibility to combine both rooms for larger exhibitions, events, and activities while still accommodating private meetings and school exams when needed.

SUSTAINABILITY

Hardwaste Disposal Week

The next hard waste week is schedule for the second week of October School Holidays.

Poochera Informal Camping Area

The Community Strengthening and Planning Committee considered a report regarding the ongoing littering and fire safety issues of an informal camping area that has bene established at the corner of Streaky Bay-Poochera Road and Eyre Highway. The Committee recommended and Council endorsed that the entry and exits points be blocked with the installation of signage to deter campers from the site.

Net Zero Accelerate Program – Council Emissions Summary Report

Council was fortunate to be able to participate in a funded pilot program to undertake a study and produce a report that looked at Council operations, established what its current key emissions are and look at opportunities to reduce emissions. Council considered the report at its September meeting of Council and resolved to receive and note the report with no further action to be undertaken regarding the recommendations within the report.

Blue Swimmer Crab Sustainability

Council considered at its September meeting of Council correspondence received from the Ceduna Aboriginal Corporation who were raising concerns regarding the sustainability of Blue Swimmer crabs due to the ability for operators to obtain multiple licences for the use of Lift Nets for fishing activities.

Blue Swimmer Crab Sustainability

Council considered at its September meeting of Council correspondence received from the Ceduna Aboriginal Corporation who were raising concerns regarding the sustainability of Blue Swimmer crabs due to the ability for operators to obtain multiple licences for the use of Lift Nets for fishing activities.

Council supported the request to PIRSA to implement a limit of ten (10) Lift Nets per vessel for targeting Blue Swimmer Crabs on the West Coast, regardless of the number of licences operated from that vessel.

SUSTAINABILITY CONTINUED...

The proposed limit being driven purely by sustainability considerations and aims to ensure the long-term health of the crab population and the overall integrity of the fishing industry.

Old Haslam Landfill Site

There are a number of occurrences of illegal dumping that has occurred at the Haslam Landfill Site, a letter was sent to all Haslam residents outlining that this was unacceptable and the gate from the township to the site had a padlock placed on there.

Council Officers and contractors have now removed all illegal dumping from the site.

COMMUNITY DEVELOPMENT

Streaky Bay and District Wellbeing Strategy

The draft Streaky Bay and District Wellbeing Strategy is complete and awaiting senior management review. It is anticipated that the draft strategy will be presented to Council's October ordinary meeting for review.

The Men's Table

The Men's Table are an organisation who are passionate about supporting men's mental health through connection and conversation, a program that aligns with The Wellbeing Projects purpose of strengthening community connection and inclusivity. The Community Development (CD) team have received several enquiries about this program and are confident that it is gaining a positive interest in the community. The Wellbeing Hub Project Officer will continue to promote and market this on social media and through the Criterion.

Council News

COMMUNITY DEVELOPMENT CONTINUED...

While the program facilitator and organisation founder has been busy promoting via radio across the Eyre Peninsula, information sessions are schedule for Streaky Bay and Wirrulla.

Ageing Well Strategy

Council was successful in obtaining funding to develop this strategy. Council Officers are currently assessing quotes for consultants to assist in the development of this plans and further updates will provided as the project progresses.

River Rock Art Instalment

During the NAIDOC week Family Event Streaky Bay youth hand painted over 300 rocks under the guidance of artist Jaylene Ware from Ceduna. On Tuesday 6thAugust the Wellbeing Hub Project Officer.

Some NAIDOC Committee members and the Infrastructure team poured 10 stepping stone moulds for the rocks to be showcased in. This will then be displayed in the Pioneer Park bush garden.

Thrive Wellbeing Group

The Thrive committee met on Thursday 15 August 2024. During the meeting the committee discussed events for 24/25, including the Community Fun Run, the Men's Table event in October 2024 and the community garden. The committee is also planning for an event in November which showcases the districts physical and mental wellbeing services.

Volunteer Program

These sessions are free for Community volunteers from within the district to attend.

The final workshop is based on Event Management, the first session focuses on Financial Viability and Sponsorship and will be held online on Tuesday 10 and Tuesday 17 of September 2024. Currently there are 12 people registered for these workshops.

Local Drug and Alcohol – Community Action Plan

The submission process for Councils third Community Action Plan (CAP) is currently in progress.

The suggestions received through engagement with school students and families during recent events will shape the upcoming plan. Once the submission is accepted, the CDS will present the full plan to Council.

The Alcohol and Drug Foundation have commenced an evaluation pilot program which the CDS has been asked to participate. This pilot program will see the ADF and Local Drug and Alcohol Teams collaborating with First Person Consulting to support the evaluation process of the Community Action Plan. FPC will work with LDAT's to design data collection tools, preparing data collection activities to suit our activities and debriefing on data collection post activities.

Streaky Sounds

The CDS is currently undertaking conversations with artists for the 2025 event. Headliner contract has been provided. Staging and Production teams have been confirmed.

The CD (Community Development) team is now reviewing the event as a whole and working on creating some efficiencies. The team hope to have the full line-up dropped and pre-sale tickets advertised by end of October 2024.

Fringe 2025

The CD team has listed the Hall/Supper room as a registered venue for the Fringe 2025. The CD team will work with Fringe organisers and performers to host shows in 2025.

FROM THE CEO'S DESK

Pool Fencing: *A crucial Summer Safety Measure*

As the weather warms up, our community's attention often turns to outdoor living and, for many, enjoying time by the pool. With the rising temperatures comes a reminder of the important safety requirements that must be adhered to for all pools, whether they are permanent or temporary.

In South Australia, pool fencing is not only a legal requirement, but a vital safety measure designed to protect our most vulnerable community members—young children. Whether you are installing a pool for the first time, selling a property with a pool, or setting up a temporary pool for the summer months, it is essential to ensure that all safety regulations are met.

Council News

FROM THE CEO'S DESK

Pool Fencing Regulations

The regulations for pool fencing in South Australia are clear. Any swimming or spa pool must have a continuous safety barrier that restricts access by young children.

- The fence must meet specific criteria, including:
- The fence must be a permanent, continuous barrier to young children.
- It must be designed in such a way that children cannot crawl under or climb over it using foot or hand holds.
- The minimum height of the fence must be 1.2 meters.
- If using a boundary fence as part of the safety barrier, it must be at least 1.8 meters high on the pool-facing side, with a 900mm non-climbable zone at the top inside of the fence.

Gates to the Pool Area

Equally important are the requirements for pool gates, which must:

- Swing outward from the pool area.
- Be self-closing from any position.
- Be fitted with a latching device that is out of reach of small children, positioned at least 1.5 meters above ground level.

These regulations are designed to prevent unsupervised access to the pool area, which is critical in reducing the risk of accidental drowning, especially for young children.

Temporary Pools Also Need Fences

With many families opting for temporary pools during the summer months, it is important to note that the same fencing requirements apply to these pools as well. Temporary pools might seem harmless, but they pose the same risks as permanent pools. Even a shallow pool can be dangerous, and a safety barrier is essential.

Safety Measures for Spa Pools

It's also worth noting that child-resistant hard covers cannot be used as a substitute for fencing around above-ground spa pools. While these covers may seem like a convenient solution, they do not meet safety standards because there is no barrier in place when the cover is off.

A Safe Summer for Everyone

As a community, it's our responsibility to ensure that pool safety is a priority this summer. For those selling a property with a pool, remember that the pool must have a valid certificate of compliance before settlement can be completed. This may involve upgrading your fencing or barriers to meet current safety standards, but it's a small price to pay for peace of mind.

At the District Council of Streaky Bay, we encourage all residents to review their pool safety measures—whether permanent or temporary—so that everyone can enjoy a safe and fun summer by the water.

Stay safe, and enjoy the season!

Damian Carter
CEO, District Council of Streaky Bay

DISTRICT COUNCIL OF Streaky Bay

VACANT MEMBER POSITION

COMMUNITY STRENGTHENING PLANNING COMMITTEE

Section 41 Committee of Council

Are you an interested community member who is an interest and background in two or more of the following (but not limited to) areas of business, economic development, tourism, development and planning, or similar expertise?

Are you interested in being part of an active committee that reports to Council and provides advice and recommendations around economic and community development, planning, Council strategies, policy direction, project planning, tourism, arts, and culture?

The committee meets a minimum of once per quarter.

To submit your application, provide a covering letter outlining your experience and interest to HR@streakybay.sa.gov.au , post to PO Box 179 or deliver to 29 Alfred Terrace, Streaky Bay SA 5680.

For enquiries please phone Penny Williams (General Manager – Prosperity) on 08 86261001 or email planning@streakybay.sa.gov.au

Application are open until 5.00pm Friday, 11 October 2024.

TOWNSHIP COMMUNITY PLANS
CONSULTATION

DISTRICT COUNCIL OF Streaky Bay

Help Shape the Future of Our Towns: Township Community Plans Consultation

The District Council of Streaky Bay is excited to introduce a fresh approach to community planning, tailored to reflect the unique character and aspirations of each township in our region. As part of this initiative, we are creating individual Township Community Plans for Streaky Bay, Wirrulla, Poochera, Haslam, Sceale Bay, and a combined plan for Perlubie and EBA Anchorage. We're also inviting residents across the district who use Streaky Bay's services and facilities to contribute to the Streaky Bay plan.

These plans will help the Council understand what each community needs to thrive and provide insights into the projects, services, and advocacy priorities that matter most to residents. The goal is to ensure that the voices of smaller townships are heard just as clearly as those in larger communities, creating a shared vision for a stronger future.

Why Are These Plans Important?
The Township Community Plans will:

- Make sure all community voices are heard, including smaller townships that rely on Streaky Bay as a service centre.
- Gather insights into each township's aspirations, ensuring a balanced approach to development that benefits both local communities and the wider district.
- Identify key projects, services, and advocacy priorities that will enhance the quality of life in each community.

By participating in the survey, you'll have the opportunity to directly influence these plans, ensuring they reflect your vision for the future of your town and our district as a whole.

How Will These Plans Be Used?
The Township Community Plans will guide the Council as it shapes its four-year Strategic Priority Document, setting out the actions and projects we'll focus on in the coming years. Although these plans are advisory, they will serve as important reference points for understanding the specific priorities of your community. While not every project may be feasible, due to Council's commitment to financial sustainability, your input helps us explore the viability of each idea and identify the most important initiatives.

How Are These Plans Different from Other Plans?
Unlike the Master Plan, which focuses on physical infrastructure, or the long-term Community Vision Strategic Plan, which offers broad guidance, the Township Community Plans are more specific. They zoom in on the projects and services that matter most to your community, making sure that the priorities identified in other planning processes are brought to life.

Have Your Say!
Your input is essential to shaping the future of our townships. Please take a few moments to complete the Township Community Plans survey and help ensure that the future of our region is shaped by those who know it best—you, the community.

Find the survey link on our website: www.streakybay.sa.gov.au/your-council/latest-news/help-shape-the-future-of-our-towns-township-community-plans-consultation or pick up a paper copy at the Council office. Your participation will help us create vibrant, sustainable towns that reflect the needs and aspirations of everyone who lives in or relies on them.

The survey will close on Friday 11th October 2024

JOB VACANCY

Customer Service & Records Support Officer Fulltime – One Year Contract

The District Council of Streaky Bay is seeking an interested applicant who would like to join our team as a Customer Service & Records Support Officer.

The successful applicant is required to be energetic, motivated and have a high level of work ethic who can show that they can communicate, guide, and implement programs and solutions within the organisation.

The applicant must be able to work within a diverse workforce, contribute and align with Councils strategic vision and pillars. A Position Description can be obtained from the District Council of Streaky Bay Office or via the Council website www.streakybay.sa.gov.au.

DISTRICT COUNCIL OF Streaky Bay

Blocktober

MOW MOW MOW YOUR BLOCK!

LONG GRASSES AND THICK UNDERGROWTH ARE A RISK TO COMMUNITY SAFETY. BUSHFIRES CAN KILL. AND SO CAN SNAKES SO PLEASE CLEAR YOUR BLOCK.

Our Streaky Bay Council Fire Prevention Officers will be undertaking an inspection program of properties in the district during October. Owners of those properties that are not compliant may be issued with a hazard reduction notice specifying the actions that are required to be taken.

Be aware that Council engaged contactors will also be deployed to conduct works if the property remains in default and the cost will be charged to the landowner. And a fine of up to $5,000 could be imposed. So please act now and keep our community safe.

This work is done by Council to reduce bushfire risk in the community.

ARE YOU BUSHFIRE READY? PREPARE. ACT. SURVIVE.

If you require assistance the following mowing contractors are available within the district:

Skelty's Slashing Service – 0410 857 833

Paul Dudura – (08) 8626 1453

Bay Areas Slashing & Mowing – 0487 445 693

Gazania *(Gazania spp.)*

Fact sheet

What do they look like?

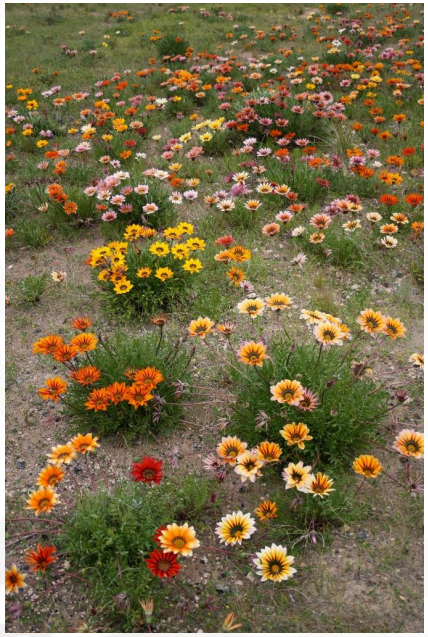

Gazania is a drought tolerant perennial herb that is supported by a shallow rooted rhizome system. It grows to an average of 30cm tall. Originally from South Africa, the plant has daisy-like flowers ranging in colour from orange, red, yellow and purple. The leaves are dark green-silver and very hairy underneath. They are long and thin and measure 5-10cm long and 3-20mm wide. The tufts appear as a thick mat, displacing other vegetation in the area. The plants flower from June to December and are often seen in disturbed areas such as roadsides and coastal dunes.

The one seeded fruit is egg-shaped with scales and hairs. The plant reproduces from seed, which is spread by the wind and stolons (stems). The seeds are thought to be short-lived. The plant can also hybridise with other subspecies of Gazania (such as *linearis* and *rigens*.)

Why should Gazania be controlled?

A garden escapee, Gazania is commonly found on the Eyre Peninsula. It has become an environmental weed after being widely planted for ornamental purposes. It easily colonises disturbed ground such as roadsides but invades bushland, crops and vineyards. Once established gazania can form dense stands that exclude all other plants. It impacts on native vegetation by competing for moisture and nutrients. It spreads along road reserves, degrading remnant native vegetation. It invades and degrades coastal dune vegetation.

What are my responsibilities?

Gazania is a declared weed under the *Landscape South Australia Act 2019.* On the Eyre Peninsula the transport and selling of the plant is prohibited.

What are the best ways to control Gazania?

Established infestations can be difficult to remove, but a sustained effort can yield good results. The two main methods are physical and chemical control.

Physical control

Seedlings, small plants and small infestations can be grubbed, making sure all the rhizomes are removed. Correct disposal of grubbed plants is essential to prevent further spread of this weed. It is recommended that you first remove and bag the flower heads to prevent seed dispersal and place them in your red rubbish bin for deep burial at the dump. Once the plant is removed it is a good idea to compact the soil back down to prevent further weed infestation. Planting a competitive replacement is advisable to inhibit re-growth from the Gazania. Known sites should be regularly checked for regrowth.

Chemical control

Large infestations of gazania are best controlled with herbicide. Foliage should be thoroughly sprayed to runoff and care taken not to miss any part of the plant.

Here are some of the chemical formulation options:

Spray plants until just wet with a mix of 50ml glyphosate (450g/L) in 10L water.

In bushland areas use 4g of Lontrel®750 plus 25ml Pulse® in 10L water to reduce damage to companion plants.

200g/ha of Lontrel®750 plus 0.25% wetting agent can be used for roadside and overall spraying.

Roundup Biactive (glyphosate (360g/L) at a rate of 100ml to 10L of water can also be used for conservation areas, bushland and other non-crop areas.

In 100L of water mix 250ml of Lontrel advanced with 2L of Bioweed Organic pine oil. Or in 100L of water mix 500ml of Lontrel 300 and 2L of Bioweed organic pine oil.

The best time to apply herbicides is in autumn or spring, but good results can usually be achieved any time the plants are actively growing.

Do you have Gazania?

If you think you have Gazania on your property, Eyre Peninsula Landscape Board staff can provide advice on control and management.

Bulls Broncs and Barrels the Rodeo by the Sea

Dust off your boots, grab your hat and swag and head to the Rodeo by the Sea ! See the top competitors battle it out for 8 long, heart stopping, gut wrenching glorious seconds.

This year's lineup includes veteran stock contractor Ron Woodall, who has a long and respected reputation in the industry spanning more than 5 decades. Ron's bulls and horses will be impressive as is his team. Arena Announcer Bryce Dodd is back and not only is a great caller, but he also brilliantly explains the specific challenges the rider faces which educates and informs the rodeo crowd. Team Kelpie will be there too. The much-loved rodeo clown and barrel man engages and amuses continuously throughout the event and actively involves the children and rewards the attendees by throwing great give aways into the crowd. On top of this Kelpie's main job is protection athlete, looking out for the cowboys when they get into challenging situations.

There's great prize money up for grabs $5k for both the Open Bull ride and Barrel race and locals are welcome to participate in the Second Division and Junior events.
The event is fully catered for with food vendors, bar facilities, retail vendors, live music with Bonkers and The Cuckoos and amusements for the children including jumping castles.

There will be a Best Dressed Cowboy and Cowgirl competition with great prizes up for grabs so get those outfits ready.

Rodeo by the Sea are recipients of the SATC Regional Event Funding and have been granted support over the next three years. The rodeo committee are appreciative of the initiative and how it assists to promote the town and district of Streaky Bay and the greater Eyre Peninsula; and very proud of the quality of the event and how it improves incrementally year-after-year. As winners of the local event-of the-year Australia Day awards and finalists in the Tourism Industry Council SA awards the rodeo is poised to build on this momentum.

One of the committees' goals is to consistently host a quality event that will enable them to demonstrate their capabilities to host a National Final, which would see attendance numbers swell 3-fold, a stretch target yet achievable.

Nutrien and local Nutrien West Coast Ag of Streaky Bay are the naming right sponsors. Other local sponsors that make this event possible include the Streaky Bay Tourism & Business Assoc Inc, District Council of Streaky Bay, Streaky Bay Racing, Streaky Bay Hotel Motel, Courela, McEvoy Transport, Streaky Bay Community Op Shop, Becks, Perrys Fuel, RDAEP, Ceduna Toyota, Ceduna Machinery, Ceduna ISUZU, Port Lincoln 4WD and region backers SATC, BHP, Kennards Hire, Border Village and Nullarbor Roadhouse.

The event is a true community-based initiative championed by the Streaky Bay Tourism & Business Assoc Inc and Streaky Bay Racing who pull together resources, time and effort to ensure the programs success. Friends of the rodeo are also acknowledged as contributors who offer generous in-kind support and services such as preparing the arena to working behind the bar. Local individuals giving generously of their time.

This year there will be a special acknowledgement of a local who has had a long association with the rodeo and the bronco branding community, Robbie Schmidt. Sadly, Robbie passed away earlier this year, but left a very positive and lasting influence on those that knew him. At one stage of his career Robbie was a Saddle bronc competitor. Rodeo by the Sea will acknowledge Robbie and his contribution to the sport by naming this year's event the 'Robbie Schmidt Memorial Saddle Bronc trophy'. A visual montage depicting Robbie and his love for rural community will be played on the large digital screen and members of Robbie's family will be in attendance as guests of honour.

Of course Streaky Bay also has another great Saddle bronc champion the late Johnny McInnes who will also be acknowledged during the Saddle bronc event.

There is plenty to see-and-do in Streaky Bay on rodeo weekend, kicking off with the welcome to town 'Meet-and-Greet' at the Streaky Bay Hotel Motel. From 6.30pm locals and visitors have the chance to meet the competitors and experience local hospitality. There's a raffle of a super sized esky courtesy for Lion XXXX with all proceeds going the RFDS. The winner will be drawn during the rodeo.
On rodeo day, a free shuttle bus will pick-up and safely return to-and-from the hotel, Discovery and Islands caravan parks.

There's free camping for rodeo ticket holders with a swag or tent at the Racecourse on Friday and Saturday night.
This year promises to be a great family event with something for everyone. Gates open at 1pm main event at 4pm.

Get your Early Bird tickets online at www.rodeobythesea.com.au
Enquiries to info@rodeobythesea.com.au

INDOOR BOWLS

Three of the four weeks 28/8 to 18/9 S.B.I.B.C. competitions resulted in a team winning 3 games which is not unusual , but for this result on 3 consecutive weeks is unusual.
Each week bowlers are drawn to play in different teams and to play in different positions. That means a skipper one week maybe a lead, second or third the next week. All the interchanges add to the enjoyment of the friendly social gatherings.
Only once in the above 4 weeks was a shot count needed to declare the winner. Then with 3 teams on 2 wins + 1 loss the winner was determined, 36 shots to 30 and 24.
A few really high scores were recorded during the 4 weeks. Gay's winning 3 game total on 4/9 was 39 shots and Geoff's team scored 18 shots in just the first game on 11/9. In the same period the "giveaway " penalty scores were reduced.
Daylight Saving Time here and the festive season is just around the corner. The club has started checking on the end of year party venue, for details see next Criterion.

Winning teams were=
Aug. 28 = Connie, Julie, Gay, Cheryl
Sept. 4 = Gay, Connie, Marlene
Sept.11 = Connie, Raylene, Joylene, Bev.W
Sept.18 = Joylene, Julie, Darryl, Marlene

HOSPITAL AUXILLARY

Since our last meeting we have catered for the Probus ralley which has been a great success thanks to the many people involved. To our committee and to those locals who helped out thankyou so much all efforts which have been greatly appreciated. We are hoping to get garden area at Elmhaven on automatic watering systems before summer to save many hours watering and to help our Jim at 99 years having to drag hoses around even though he gets a lot of satisfaction from doing it and loves his garden and proceeds from this catering will be used for this purpose.

As of last newsletter our next meeting is on Tuesday 1st of October hospital boardroom and the vein finder will be demonstrated its an open invite for anyone to come. Would be nice to see a few new members come along to support our small group in supporting our Hospital and Elmhaven such important and vital facilities for our Community.

PROBUS

The Probus Rally was a fantastic success last week. It was a very friendly Rally. With many visitors enjoying what Streaky Bay has to offer. We had many local speakers as well as entertainment.

A huge thank you to all local businesses who donated towards the raffles. It is very much appreciated.

On Thursday 19th Sept we were back to our normal meeting. We were lucky enough to have Paramedic David Coombe from the South Australian Ambulance Service (SAAS) as our quest speaker this month.

We all introduced ourselves to him and shared many funny stories about each other and an interesting fact about Streaky Bay that Dave might not yet know.

Dave shared his journey and his career and how he now resides in Streaky Bay.
Both Dave and Courtney demonstrated the razier chair which is a lifting device that the volunteers can use if anyone ever has a fall at home.
Everyone found it very interesting.

STREAKY BAY COMMUNITY OP SHOP

Since opening our doors just over two years ago in the 7m x 7m pop up shop, The Bay Community Op Shop has given over $60,000 back to the Streaky Bay district. We thank the Streaky Bay community for their amazing support in the form of donations and purchases.
At our AGM an overwhelming majority of volunteers voted to move to a larger location where both the sorting and selling of donated items could take place in the same building. All donations can be dropped off here as well.

Partners and friends, together with The Men's Shed fellows, loaned us their strength on Friday, August 30th. The furniture and contents of the old shop were relocated to the new shop, and all within two hours. We thank everyone most sincerely who helped make the move so much easier with your contribution. The committee and members of the sorting team then worked tirelessly to be able to open after the weekend.

On Monday, September 2nd, at 10:00 am a morning tea was held at the new premises to celebrate the opening of the shop. So many people showed their support by attending and making purchases.

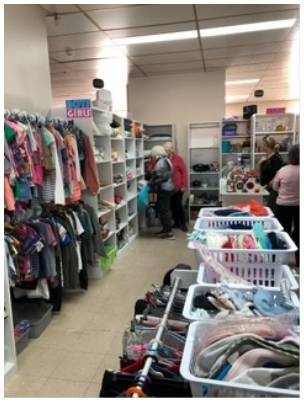

The Streaky Bay community is to be thanked for encouraging and supporting this wonderful way of recycling donations in a way that benefits the community. We must also thank the businesses either side of us for their encouragement and support. Thank you to Drift and KC's. Thank you to Paul Beck for his flexibility and generosity while we moved in. Thank you also to the Streaky Bay Council for several allowances given to us. Of course we could not operate without our volunteers. We have over 50 community members who are willing to donate their time and effort to ensure we continue to succeed. So thank you everyone for your time and commitment.

If you have not yet visited us, we are now located between Drift and KC's on Alfred Terrace. Donations are always welcome and we look forward to seeing you soon.

STREAKY BAY COMMUNITY OP SHOP CONTINUED..

STREAKY BAY LIONS CLUB

The Streaky Bay Sub Branch of the Cowell Lions Club has recently been formed. We are awaiting final processing by Lions International.

The Streaky Bay Lions Sub Branch meetings are held on the first Wednesday of each month at 7.30 pm in the Buff Lodge.

Anyone that has a wish to help their greater community or wishes to find out more about the great work and possibilities that can be achieved through Lions International are more than welcome to come along.

Cheers
Noel Box
President
0428397318

Community News

MENS SHED

First up three thankyous from the Men's shed.

We would like to thank the Community Op Shop for their donation for helping with the move from old place to new.
We would also like to thank Tom Brooks for his donation of patterns, stains, wood and machinery. Any items given to us means we don't have to buy it.

While on donations we would like to thank Micheal Sharplin (Streaky Bay Upholsterer) for donating the covering of 6 chairs that we hope to have up for sale at the car boot sale coming up at the Buff lodge in October.
On a sad note, we have learned that a regular visitor in Doug Watson from Port Pirie passed away a couple of weeks back. Doug made some different styles of nesting boxes for us to copy during his visits. RIP Doug.

It is great to see some good numbers attending the Men's Shed on Fridays.

Our shed is in the process of applying for DGR (Deductible Gift Recipient) which means if we get endorsed, we can receive donations from people, and they can claim it back on their tax.

We have also applied for a grant through EPCF (Eyre Peninsula Community Foundation) in Port Lincoln to purchase a new laptop, so our Treasurer is not using his personal computer for Shed work. This will also allow us to have all of our pictures in one place.

Members have been sorting out our wood stocks both inside and outside on the veranda as well as the container that has wood in it as well. Well done for all those that have helped.

We are still getting jobs from people in the district. We are doing up an old kitchen cupboard for someone and a rocking chair for another person. We have also made a wooden anchor for decorative purpose.

The members have been spoilt over the last couple of weeks with different people making cakes for our morning tea, as well as some great steak sandwiches made by Rob Fiebig on Friday the 12th of Sept.

MENS SHED CONTINUED...

We have made some wooden toys that are on sale at the craft shop along with bird feeding tray and a bird nesting box.

As was reported in last months edition we have now made two different styles of pygmy possum nesting boxes for out at the gun club. Yet to be delivered. (see pictures)

The grass out the front of our shed is looking great thanks to Rob Fiebig for mowing it.

Our shed has been asked if we could do a breakfast for 7 Black Dog motor bike riders who are riding from Tasmania to Perth.

Black Dog Ride is a National Charity in Australia that raises awareness of depression and suicide prevention.

If there are any males around town that would like to come a visit our shed, you are more than welcome to do so. We are open every Friday between 9.00am and 3.30pm.

Our location is the old bowls club on Montgomerie Tce.

SACWA - STREAKY BAY

On September 10th, we had a successful cake and biscuit stall at the Probus Rally held at the Sports Club. Our thanks go to the Probus Committee for the invitation.

COMMUNITY ACHIEVEMENTS

Paul Evans from Streaky Bay is researching how to consistently produce higher-quality oysters by combining different farming methods and technologies. Supported by **FRDC** Paul's work could elevate the standard for oyster production in Australia.

Streaky Bay Distillers Smooth Pool Gin just won a silver medal in the Contemporary Style category of the Australian Gin Awards. Created by distilling local abalone shell, local lemons and kunzea, this gin has the mineral tastes of the ocean - made right here in Streaky Bay. Congratulations to Bec and Tony!

COMMUNITY ACHIEVEMENTS CONTINUED...

Streaky Bay Area school has proven they are Formula 1 stars of the future in the South Australian State Finals.

Students had to design, build and race a CO2 gas powered racing car against other school teams at the Royal Adelaide Show.

Their Accelerence team finished 3rd overall in the Professional class, also taking out Fastest Lap, Best Team Marketing, Best Graphic Design and Best Team Trade Display.

Team Altitude won Best Team Verbal Presentation and finished 5th in the Development class.

They were also pretty stoked to be able to talk about what they'd been up to with Brooke Neindorf on the Country Hour.

Congratulations to all the students, teachers and pit crew.

Is your swimming pool kid safe?

Government of South Australia
Attorney-General's Department

As a swimming pool owner, YOU ARE RESPONSIBLE for safety.

Drowning is the biggest cause of accidental death for young children and most occur in private backyard swimming pools. You can reduce the risk of such an accident occurring in your swimming pool by making sure that your pool is adequately fenced and young children are supervised at all times.

Fencing

> All swimming pools must have a continuous safety barrier that is maintained by the pool owner and which restricts access by young children to the pool.

Filtration

> In-ground or above-ground swimming pools and spas must have a water recirculation and filtration system that complies with AS 1926.3 to reduce the risk of injury to a young child due to entrapment by suction.

> Swimming pool owners must ensure that all required swimming pool safety features are maintained in working order at all times.

Maintenance

> The self-closing gate, which is a required safety feature, can be compromised if not regularly maintained.

Supervision

> Children can move quickly and do not recognise the dangers of a pool - close child supervision will help to reduce the number of drownings in private swimming pools.

Resuscitation

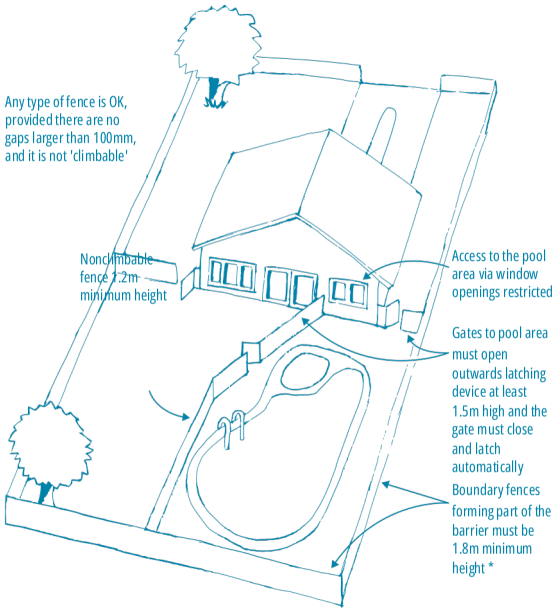

> Resuscitation skills are crucial because they save lives – make certain that someone on the property has these skills.

LEGISLATION APPLYING TO SWIMMING POOLS IN SA

Swimming pools built before 1 July 1993

If your property contains a swimming pool built before 1 July 1993 and you are placing your property up for sale you will need to ensure that your swimming pool barriers are in line with Ministerial Building Standard MBS 004 - Swimming pool safety - designated safety features for pools built before 1 July 1993.

If the property on which a swimming pool is located is not sold, the swimming pool can continue to comply with the old *Swimming Pools (Safety) Act 1972*, which requires the swimming pool owner to ensure that the swimming pool is enclosed by a fence, wall or building or any combination of these, that restricts access by young children to the swimming pool.

* Boundary fences forming part of the barrier must be 1.8m high, with a 900mm non-climbable zone at the top on the pool side of the fence.

Government of South Australia
Attorney-General's Department

Swimming pools built on or after 1 July 1993

Swimming pools built from 1 July 1993 must comply with the rules that were in place when the pool or child safety barriers were approved. Contact the local Council to find out what rules apply.

Acceptable safety barriers

All pools must have suitable safety barriers to restrict access by young children to the immediate pool surrounds, constructed in accordance with Australian Standard AS 1926.1.

Barrier requirements complying with AS 1926.1

Fencing must be constructed, such that:

> the fence is an effective barrier to young children

> it is permanent

> it does not provide access for young children to crawl under or to climb over by using foot and hand holds

> it is not less than 1.2 metres high

> boundary fences, if used as part of the child-safety barrier must be at least 1.8 metres high on the inside, with a 900mm non-climbable zone on the inside at the top. It can be less than 1.8 metres high and can be climbable on the outside (neighbour's side).

Gates to the pool area must:

> only swing outward from the pool area

> be self closing from any position

> be fitted with a latching device that is out reach of small children (generally 1.5 metres above ground level)

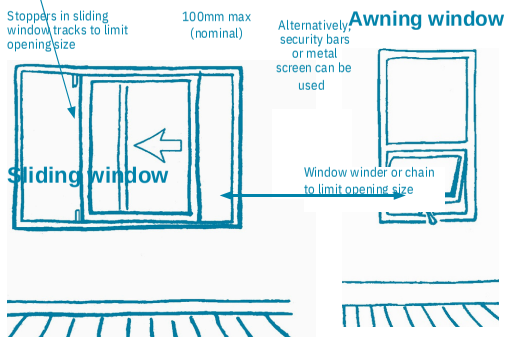

> you should never prop the gate open or prevent it from latching.

Security measures on awning and sliding windows complying with AS 1926.1

Where the openable part of any window is less than 1.8 metres above the finished ground level and provides direct access from the house to the pool area, it must have one of the following:

> bars or metal screen or

> a mechanism limiting the size of the window opening to a maximum of 100mm.

Inspections

If you are selling a property with a swimming pool, you are not required to have an inspection or compliance certificate – however some council officers, building consultants and private certifiers are able to offer advice. Only council officers have legislative authority under the *Planning, Development and Infrastructure Act 2016* (PDI Act) to enforce requirements for swimming pool safety.

For new swimming pools, your local council will inspect the pool and safety features including the finished child safety barriers. You need to notify your council at two stages:

1. When the pool itself is ready for filling with water
2. When the approved child safety barriers are finished and ready to inspect.

You must not fill the pool until a complying safety barrier is in place. A temporary barrier that complies with the Building Code can be used for not more than two months.

POOL SAFETY CHECKLIST

Ask yourself these questions to assess the safety of your pool.

> Could a young child easily climb over, under or through your fence to get to the pool?
Minimum standards for new pools require (generally) a 1.2m high permanent fence (or 1.8m in the case of a boundary fence), which a young child could not easily climb over or pass through from outside the pool enclosure.

> Do all of the gates in your pool safety barrier close and latch properly, so that they could not easily be opened by a small child?
Gates must be self-closing and self- latching. The release for the latching device must be at least 1.5m above ground level or otherwise out of reach. Gates must be hung so that they open outwards from the pool area. Never prop the gate open.

> Is the pool clear of toys and other floating objects that could attract a child's attention?
Balls and other floating toys can attract children to the water. Keep them out of the pool area when not in use.

> Could a child get access to a swimming pool through a window in your house?
The current requirement for new pools is broadly that, where the openable part of the window is less than 1.8m above the finished ground level, then a child could get access to the pool area through the window and as such the window must be protected to AS 1926.1

> Do you keep an eye out for objects that could be used for climbing over a pool safety barrier?
Objects such as garden furniture, children's toys, plants and ladders could be used by young children to climb over a safety barrier to get to the swimming pool. Keep these objects well away from the safety barriers.

> Do you supervise young children while they are in or outside the pool area?
Safety barriers alone are not enough to prevent young children from getting to a swimming pool. Young children are adventurous; they may climb, squeeze through or scale safety barriers to get to a swimming pool. Adequate supervision is essential.

> Do you have resuscitation skills?
Total responsibility includes resuscitation skills. Training for resuscitation is available from The Royal Life Saving Society, Australian Red Cross and St John Ambulance.

> Do you maintain the fence and gates?
The law requires that you must ensure that safety features are maintained in good working order at all times. This includes making sure that the gate closes and latches automatically.

Degradation of the self-closing gate can be caused by overuse or infrequent use of the pool area and its associated safety barriers.

This can lead to failure of the safety barriers to function effectively.

Government of South Australia
Attorney-General's Department

FREQUENTLY ASKED QUESTIONS

What is a swimming pool?

The PDI Act defines a swimming pool as an excavation or structure that is capable of being filled with water and is used primarily for swimming, wading, paddling, or the like, including a bathing or wading pool, or spa pool, but not a spa bath.

People often ask if the requirements apply to a fish pond or landscaping water feature. The answer is that they do not unless it is used primarily for swimming, wading, paddling or the like.

If I buy an aboveground or inflatable pool, what do I have to do?

If the pool has a filtration system, you will need to contact your local council about obtaining approval for the pool and ensuring safety features are in place.

The sides of my aboveground pool are more than 1.2 metres high. Do I need a fence as well?

The sides of some aboveground pools can be acceptable as pool safety barriers, however if you choose to rely on the side walls the ladder/access point must be fenced.

Can I install a portable pool or spa on a deck?

If you are thinking about installing a portable pool or spa on a deck, balcony, suspended floor or near a retaining wall you should seek advice from an engineer or your local council about whether the deck or wall can take the weight of the pool without collapsing.

Do I need development approval for a new pool?

Yes. Before approval, your local council will check:

> the details and location of safety barriers (they should restrict access to the swimming pool by young children)

> the safety of the pump (there are a number of safety requirements in place to prevent suction-related injuries or deaths in swimming pools)

> the adequacy of structural support for the swimming pool (particularly if the pool is to be placed on a deck, balcony or near a retaining wall)

I want to sell my house and I have a swimming pool. What are my legal obligations?

If your property contains a swimming pool that was built or installed before 1 July 1993 and you are placing your property up for sale you will need to ensure that your swimming pool barriers are in line with the relevant requirements for swimming pool safety. Fencing or barriers may need to be upgraded to meet the safety requirements.

Note: This requirement only applies to swimming pools built or installed before 1 July 1993.

It is the responsibility of the party selling the property to ensure that the swimming pool safety is in line with the current requirements.
Note: A certificate of compliance is not required under current legislation.

Can child-resistant doors be used as part of the safety barrier?

Child-resistant doors cannot be used for new outdoor pools – only compliant fencing can be used. For pools built before 1 July 1993 child- resistant doors can only be used in situations allowed by Ministerial Building Standard MBS 004.

How long can a temporary fence/barrier be used as the safety barrier?

For up to two months from the date of completion of the pool. The approved safety barrier must be installed before the expiration of two months.

SA Ambulance Service

GET TO KNOW THE TEAM...

WAYNE DANIEL
VALUED TEAM MEMBER

Enjoys dabbling in photography & loves a hit of golf every Sunday afternoon

How long have you been involved in SA Ambulance?
I have been involved in SAAS for 25 years. I joined in 1999 when it was looking like the town could loose the service due to low volunteer numbers

Proudest moment in SAAS
Reaching 25 years is a proud moment since I originally thought I'd do just 7.
Another proud moment is getting thanked by a patient and his son in person for the care that I provided. The patient had a fall on his push bike and fractured his neck. The care I provided him saved him from being paralysed for life

What is something the Community might not know about SAAS
During Volunteer week in May, SAAS celebrate the effort the volunteers put in through out the year and provide us with a paid event & gift for volunteers and their family members to attend

MATT KING
VALUED TEAM MEMBER

Loves a yarn, is always chasing the big waves & adores his family

How long have you been involved in SA Ambulance?
2004 started with SAAS, I did have a hiatus and than joined again in 2017

Proudest moment in SAAS
I always feel honoured to help the oldies who have done so much for our town. I enjoy being a part of the Streaky Bay team as every member puts their heart into each patient and each job.
It makes me very proud to be a part of a professional and highly trained unit.

What is something that the Community might not know about being a SAAS volunteer?
The community needs to know how nurtured and well trained each team member is.
The skills we have learnt transfer to everyday life and emergency situations.
We have ongoing trainings & a dynamic team that inspires excellence and growth.
Anyone can do it, age and gender is not an issue.
It's a great confidence booster knowing that you know how to save a life!
