# Community Grants

## COMMUNITY

### FRRR Tackling Tough Times Together

The Tackling Tough Times Together (TTTT) program gives drought-affected communities across remote, rural and regional Australia the opportunity to access funds that benefit their immediate and long-term needs.

Grants are available for a broad range of grassroots, community-led initiatives that directly and clearly benefit local communities. Applications are accepted on an ongoing basis and assessed quarterly.

What can be funded?

This program is designed to provide flexible funding to support community-based activities in drought-affected regions that both help to relieve current stressors and symptoms, and most importantly, build capacity and resilience for the future. Funds could also support activities that engage your local community in being proactive, exploring options and creating something that will stand the test of tough times.

This program funds a broad range of initiatives and purposes, including:

- Delivering activities, programs and services;
- Purchasing or hiring equipment and materials;
- Community infrastructure projects;
- Art, drama and creative expression projects to assist people to creatively express their experiences, which are otherwise limited due to the drought;
- Experiences for school children such as camps that connect young people and provide an opportunity to have fun with other young people off-farm.
- Operational and administrative costs associated with your project will be considered. This could include wages, paying a skilled contractor, or paying for overhead costs incurred in the project's delivery.

Round 21 closes: 24 May 2021 – 5:00pm AEST

Round 22 opens: 25 May 2021 and closes: 24 August 2021

## SA Fishing App

SA Fishing is the must-have guide featuring  
all the recreational fishing information you  
need to fish in South Australia.

The official fishing app of the Department of  
Primary Industries and Regions, the free  
application features searchable recreational  
fishing rules and regulations, including size,  
bag and boat limits, permitted fishing gear,  
closures and aquatic reserves.

Anglers also have access to in-app reporting  
for illegal fishing, shark sightings and aquatic  
pests to the department's official hotline,  
Fishwatch.

## Recreational Fishing Survey

Recreational fishing surveys help protect  
and sustain South Australia's  
community-shared fish stocks by  
gathering information about:

- recreational fisher participation rates
- demographics (age, gender, and  
country of birth)
- catch (harvested and released)  
effort.

If you're a recreational fisher, we  
encourage you to participate in our  
surveys to help us maintain the long-  
term sustainability of fish stocks, which  
all fishing communities will benefit from.

Messages of Faith and Hope from St Augustine's Anglican Church, Streaky Bay.

### Forgiveness.

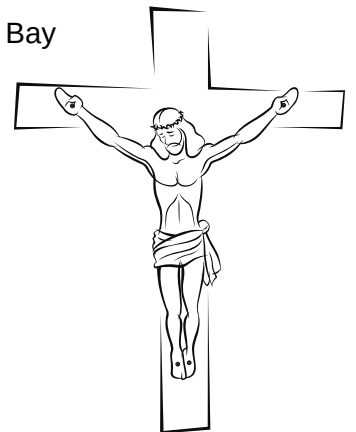

To forgive someone who has hurt you or offended you is not easy but very necessary. If you don't forgive you put yourself in a spiritual and emotional prison with no way out. Unforgiveness is an enormous burden to carry and the only person you hurt is yourself you close the door on your freedom.

To forgive someone means to let go all the hurt and pain associated with the wrong that was done to you and move on. That does not happen over night it takes time. You may intend to let go of your hurt but there are triggers that will remind you of what happened, and you relive the hurt. This happens but it doesn't mean give up. It means it takes time. Put the hurts out of your mind and let them go once again and continue to move on.

Our Lord Jesus Christ from the cross said of those who put him there, "Forgive them Father they don't know what they are doing." He also forgave His disciples for running out on him and said, "Peace be with you." He restored them.

We need help to forgive, and Jesus Christ is the only one who can give us that help. Give your life to him.

## EYRE CRAFTS COMMUNITY CRAFT SHOP

After an interesting 2020, we welcome 2021. As were many we were closed from the end of March 2020 and reopened July 2020.

Since reopening we have welcomed many locals and travellers from around Australia, many travellers coming to Streaky Bay for the first time.

The shop has been very busy and our crafters have been busily crafting to keep up with the demand. We welcome the Streaky Bay Men's Shed and Wallala Fabrics to our community craft shop.

In moving with the times we now accept EFTPOS and cash payments.

Since COVID and the loss of one of our founding members (Aylis Milburn), we have had to make changes in the running and layout of the shop.

We have changed our business name to incorporate the community in our craft shop.

With this change, this has allowed us to give back to the community by the way of a financial donation to the CFS

We welcome you to come and look at our new lines including:

- Wool and Fabric
- Haberdashery
- Many locally hand made items

We as have a large range of used books for sale, including large print books.

We thank all our members, volunteers and the community for their continued support.

## STREAKY BAY HOSPITAL AUXILLARY

### AGM Meeting held April 12th.

Minutes of last AGM read and accepted

\*Noted time frame since last AGM due to Covid restrictions.

\*Election of officers resulted in those past positions maintained.

\*Subs to remain at \$5.

\*Letcher and Maroney was again voted to audit books and donation of \$200 from them was gratefully noted.

Anthony Ryan was an apology but urged our body to continue in its support role for funds raised for the benefit of our hospital and Elmhaven.

We are badly in need of new members as these buildings and their roles play such an important part in maintaining the health and support for all in our community & district. Please think about it its not onerous and meetings are bi/ monthly only.

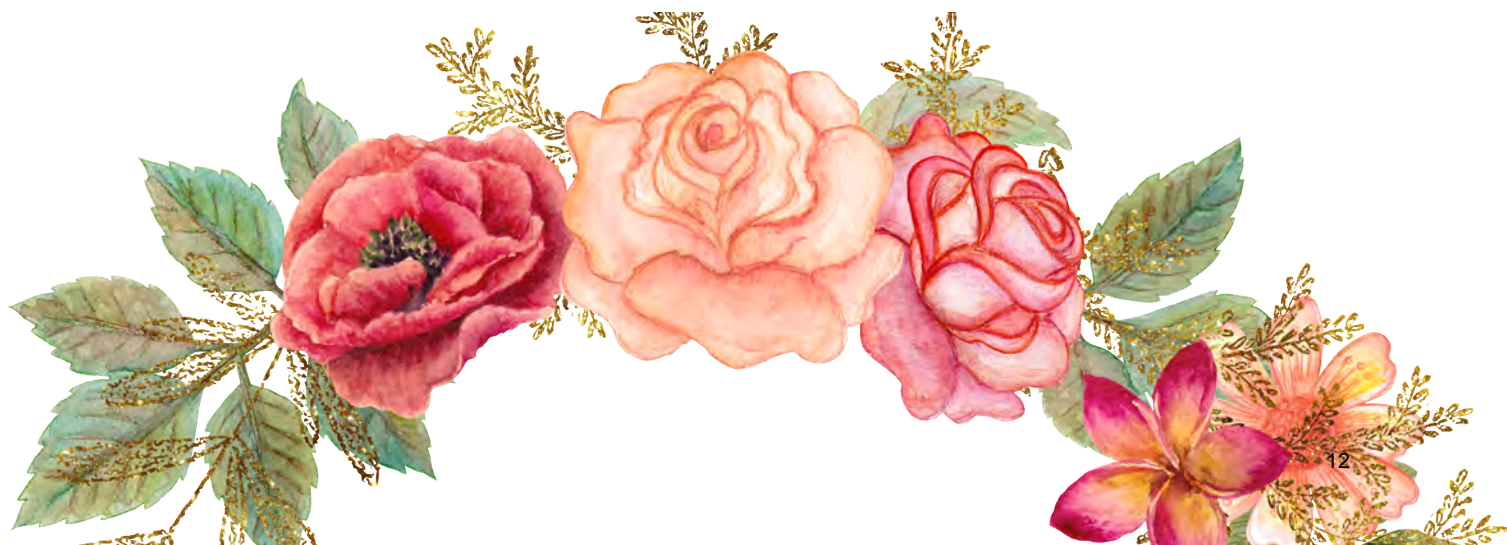

Busy Bees were well attended at both facilities where the Accreditation of both were taking place. Thanks must go to those who volunteered we did make a difference!!! Thanks also to Ross for painting and upgrading of seats/ tables

Agreement was reached in support of paying \$1914 to have fencing at Elmhaven completed and the curtains for outpatient area have arrived.

Mothers Day Raffles will be held over 2 days, the 23rd April and 5th of May, thanks to Coralie for organising this.

We have been asked to cater for a morning and afternoon tea for the Rural Woman's S.A. Rally to be held on 28th of August.

Our next meeting is June 7th, Hospital Boardroom- 2pm. Note change of date due to long weekend.

## STREAKY BAY CWA

The SA CWA, Streaky Bay Branch  
"Sharing And Caring With Action"

Several of our members meet at Fay's home to learn how to stylishly create a floral wreath, particularly to spruce up the current wreath that our branch have for Anzac Day. A wonderful morning of creativity and the end results proving it was worth the finger challenge. Followed by tasty mains & dessert for lunch and our meeting that included jokes and the history of a personal tattoo or scar. Two of our wreaths were proudly laid at the RSL monument on Anzac Day to remember those who fought in war, Lest We Forget.

SA CWA Streaky Bay branch will be the hostesses for the Cancer Council's Biggest Morning Tea. Support us support those who are undergoing treatment, their families and friends who hold their hands and remember those who battled but lost the battle. Lock in the date and see you on Thursday 27/5/2021, RSL Hall, 10am – 2pm for a cuppa and treat.

## STREAKY BAY INDOOR BOWLS

Over the past four Wednesdays the Streaky Bay Indoor Bowls Club visitors book has been in great demand. Signatures have been noted every week, the highest number to sign in was 28 on April 14.

On that day the play committee certainly had a difficult task to divide the 28 nominations into 6 teams for play on 3 mats.

The day was to grow into a great getting-to-know-you event. Club members and visitors were placed in teams of 4's and 5's with the seconds in 4 teams named to share that position of play.

Throughout the afternoon coaches did what coaches do and learners endeavoured to follow instructions. Fun all round and at times the business of bowling seem to take second place. For sure, uppermost was the enjoyment of good company.

During the course of the 3 games there were wayward bowls that rolled off mats, others that were perfect to finish spot-on and to everyone's credit the penalty scores were few and far between. Teams won, lost or drew games.

The score board when all games were finished indicated 2 teams had 3 wins. A count of shots would decide the overall winner and that done only 1 shot separated the 2 teams. Skipper Cheryl had a score of 32 and skipper Julie 31. Such a close result and congratulations to both teams.

Two club members celebrated April birthdays, Marlene on 13/4 and Kaye on 17/4. Decorated cakes for them were cut and distributed on April 14.

Teams of 3's and 4's including 4 visitors were listed to play on April 7. Before the last game on that day the board showed some unusual details.

Not only were 2 teams with 2 wins drawn opposed but each team had scored a high total of 31 shots spread over the first 2 games plus each team comprised a visitor playing in the lead position. The winner? See below.

These close tense finishing games are becoming the norm. April 21 was no different when Darryl (2 wins) played Owen (1 win+ 1 draw) in the last game. That finished with a score line of 7 shots to 6.

Winners were =

March 31 = Wayne, Jim C., Lorraine, June.

April 7 = Darryl, Bev O., Barbara (visitor)

April 14 = Cheryl, Roz, Barbara (visitor), Shirley/Kaye.

April 21 = Darryl, Jim C., Roz, George/Coralie.

Details of April 28 play and report of the club AGM will be in the next Criterion edition.

## STREAKY BAY MEN'S SHED

A huge thank you must go to Steve Mawer for giving his time to test and tag all of our electrical items. Much appreciated Steve.

Although our numbers have been down a bit we are still getting projects started or completed.

We have now replenished our nestling boxes in the craft shop, and are working on some push carts.

We have made one of two garden bed stands.

Thanks to two of our members in John Wilson and Harold Daniel we now have the donated boat fitted with new carpet.

It is great to see Doug Watson from Port Pirie back in town and doing some work for himself at the Men's Shed.

On Friday 30th April we had Bob Fiebig come and cook us some fish. Thankyou, very enjoyable.

Thanks to Jim Clarke we have now spruced up the railings on the veranda by painting them white.

The Men's Shed is selling off cuts of wood for firewood at \$2 a bag. Contact Wayne on 0448 173 564.

## STREAKY BAY PROBUS

Since our last edition the following members have celebrated birthdays.

Happy Birthday to you all.

Peter Eylward - 16th April  
Kaye Wait - 17th April  
Fay Kelsh - 18th April  
Colleen Crowder - 19th April

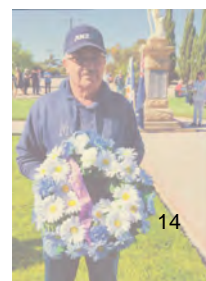

At our meeting on the 15th April we had one guest speaker in Barb Bradshaw from Gladstone in QLD who spoke about Lady Musgrave Island off the coast in QLD. Barb often visits this place. (See pic below).

We also watched a video of the second part of Cherie Rolfe's speech on the stolen generation.

At our next meeting on the 20th May we will be having a Big Morning Tea (probus members only) organised by Fay Kelsh and Zita Chester.

Wayne Miller laid a wreath on Anzac Day on behalf of Probus.

Finally on the 29th of April 20 people enjoyed a lunch at Drift.

# Great White Kaolin Project

## Project Update – April 2021

### Great White Kaolin Project

Andromeda Metals Limited (Andromeda) is a South Australian company, undertaking the works to develop the Great White Kaolin Project.

Great White is a small-scale mining operation that will develop a world class deposit of bright white clay called kaolin. The kaolin located within Great White is of exceptional purity and contains a rare type of kaolin known as halloysite. The clay will be used in a number of applications ranging from everyday products, ceramics, paints, pest control and paper through to advanced technology for medicinal uses, air and water purification, soil remediation and battery technology.

The Great White Kaolin Project is a shallow open cut mine. The mining process includes removing clay from the ground, washing and refining it before drying and bagging it for transport and export.

The project will require a capital development cost of around A\$80,000,000. This investment will establish the Great White Project, with a life of over 25 years, to provide generational jobs and opportunities for the region.

### Approval process

South Australia has a two-stage approval system.

**Stage 1** - is attaining a Mining Lease. The application along with a Mining Proposal has been submitted to the Department of Energy and Mining (25 February 2021). The proposal provides government and the community details to understand the how the project will interact with the environment and includes flora and fauna, hydrology, landscape, air quality, communities, businesses, traffic and infrastructure.

**Stage 2** - requires an approved management plan called a PEPR (Program for Environmental Protection and Rehabilitation), which addresses particular aspects of the project, identified in the Mining Proposal. The PEPR outlines systems of control and measurement to ensure that the proposed project minimises impacts on the environment.

Andromeda is currently waiting on feedback from the Regulators (Government) and will continue to meet with the community and all stakeholders to ensure there is a clear understanding of the Great White Kaolin Project. The next community drop-in day will be in the 3<sup>rd</sup> quarter this year.

### Water supply

Water is required for the project for washing the clay and dust suppression around the mine. The project has been designed to retain and recycle over 90% of its water. A hydrogeological study was conducted as part of the mining proposal to understand the groundwater and its users. The local groundwater is limited and saline, not adequate to supply the project. The shallow mining proposed will not impact the groundwater or the ability for existing users to access groundwater.

Andromeda is working with SA Water to access the Tod Main at Poochera. The proposed water supply design includes upgrading the existing infrastructure. The existing DN200 Streaky Bay supply line will be upgraded with a parallel DN250 pipe to the Port Kenny Road offtake. The project supply will be taken at this point while still providing an additional 36% volume available for Streaky Bay and the existing Inkster line users. A dedicated line has been designed for the project to be installed adjacent to the road.

Andromeda has committed \$4,000,000 in undertaking this 17 km of infrastructure to secure water services to the region and the project.

Both Andromeda and SA Water have a commitment to ensure supply pressure in the region.

### Air quality and dust

The Great White Kaolin Project has been designed to minimise dust generation. The EPA has standards that set the limits on acceptable levels of dust and the project must operate within those levels. To ensure that the dust generated from site does not exceed the limits set by the EPA, the Company will measure and record air quality data both into and out of the site, to be reported on a quarterly basis.

Dust management and minimisation is undertaken in a number of ways:

- o roads are defined and constructed using aggregates and binding agents
- o speed limits are applied on mine roads
- o maintenance of internal and access roads with use of dust suppressants
- o the staged mine development allows areas where the clay is removed, to be backfilled and revegetated to stabilise the area
- o use of covered trucks to transport product, prior to establishing the processing plant (Stage 1 – operations)
- o the processing plant (Stage 2 – operations) is a wet process, which processes the slurry, dries and seals the product in bags for export
- o landscaped earth bunds and boundary vegetation surrounding the operating area to provide windbreaks
- o our workforce employed in the mine area will be trained and focussed on safe work practices minimising dust.

### Transport and road safety

As part of the Great White Kaolin Project, Andromeda has committed to upgrading the Poochera - Port Kenny Road and the associated intersections. Based on recent surveys, the proposed upgrade of the road has been designed to improve the vertical and horizontal alignment. The intersections have also been analysed and upgrade designs have been provided to the Department of Infrastructure and Transport and the District Council of Streaky Bay for review and approval.

A commitment of approximately A\$9,000,000 has been made in the project development costs for the upgrade of roads.

In response to community request, Andromeda has committed to halting the product haulage along the Poochera – Port Kenny Road during the time of school bus runs.

### Local jobs and contracts

Up to 75 direct jobs will be created in the Poochera/Streaky Bay region with full-scale operation of the Great White Kaolin Project. This will inject combined incomes of over \$7,000,000 per annum into the community through salaries. These employees will support the development of additional services in the region like childcare and health care.

Andromeda has a shop locally policy and opportunities for supply, contracting and other services will be available. Once the project is approved, supply requirements will be communicated through Streaky Bay's Local Business Directory. Contact the District Council of Streaky Bay to register.

## RECYCLING OF PLASTIC MILK BOTTLES

COUNCIL IS UNDERTAKING A TRIAL TO RECYCLE YOUR USED PLASTIC MILK BOTTLES AND KEEP THESE BULKY ITEMS OUT OF LANDFILL  
YOUR USED PLASTIC MILK BOTTLES CAN BE TAKEN TO THE TRANSFER STATION FOR DISPOSAL

**NOTE: THERE IS NO REFUND FOR THESE ITEMS  
PLEASE ENSURE THE BOTTLES HAVE BEEN RINSED AND THE LIDS REMOVED**

Milk bottles are made from High Density Polyethylene HDPE plastics and are easily recycled into more plastic containers and items such as stormwater pipes, fencing materials - posts, stakes, droppers and bollards and also furniture such as picnic tables and benches.

The milk bottles will be baled at the Transfer Station and sent off to manufacturers for recycling into the above items.

### Did you know...?

- Plastic is an incredibly versatile material, made to be strong and durable. Unfortunately, most plastics are made to be used once before being discarded.
- 660,000 tonnes of plastic waste is created by Australians every year.
- It takes Australian households 1 minute to throw out 1 tonne of plastic waste. In one day Australians produce enough plastic waste to fill an entire beach.
- It only takes 125 recycled plastic milk bottles to manufacture one 120 litre wheeler bin from recycled plastic.
- Recycling one tonne of plastics saves enough energy to run a refrigerator for a month.
- The energy saved recycling one plastic bottle can power a computer for 25 minutes.
- China has banned plastic recycling imports. Councils around the country are grappling with how to deal with not being able to export

**YOUR HELP IS NEEDED**

- **SEPARATED ITEMS INTO PLASTIC, CANS AND GLASS**
  - **EMPTIED LIQUID FROM CONTAINERS**
  - **RINSED FLAVOURED MILK CONTAINERS**
  - **REMOVED ALL RUBBISH**

### Please Note:

**If staff deem that a customer has not made a reasonable attempt to adhere to the above, the items will NOT be accepted until appropriately presented.**

**We want to ensure an efficient process for your refunds.  
Your co-operation, patience and courtesy towards staff is appreciated.**
